

Water Warm-Ups™

Keep warm while exercising in a pool or snorkeling & surfing in the ocean! All styles are specifically designed for comfort, fit, function & fashion.

All four fabrics are super comfy, easy to move in, & have the highest available protection UV50+ against the sun & it's harmful solar rays! With **Water Warm-Ups** there's no need to wear a bathing suit. Your regular bra can be worn under **Warm-Ups** for extra support & comfort.

FABRIC INFORMATION

1. SUPER SUNSAFE • is not intended for warmth.

Chloroban® fabric from Australia has the highest rating UV50+ protection available. It's Chlorine Resistant, quick drying, soft yet strong, has excellent stretch & shape recovery. "Super SunSafe" is so light, garments can be worn comfortably in extreme hot sun, wet or dry.

2. POLY • is intended for warmth.

Our original fabric is a comfy polyolefin-lycra blend with four-way stretch & provides adequate warmth for most environments. "Poly" has the same comfortable feel and effect of wearing a sweater. .

3. and 4.

SCS Metal-Lined Neoprene

This state of the art high-tech composite material generates heat & retains it. Light weight, high stretch, high heat insulation, high durability, waterproof & easy to move in and put on & off.

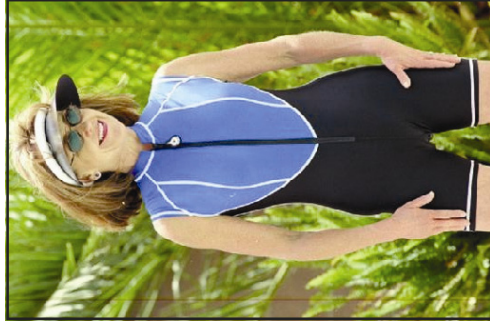

3. ULTRA STRETCH NEO • is our Warmer Warm-Up 0.5mm thick.

Revolutionary neoprene. See above description Remarkable fabric.

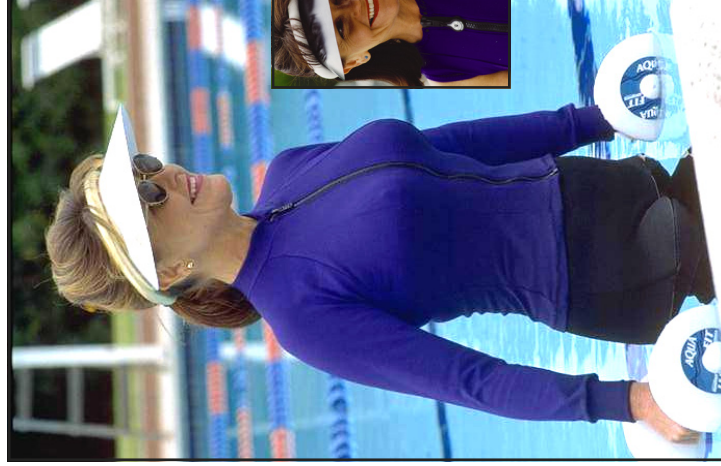

4. STRETCH NEO • is our Warmest Warm-Up 1mm thick. Same as Ultra Stretch Neo, but thicker for maximum warmth.

"Stretch Neo" Jacket (102) & Shorts (201)
"Take Two" Vinyl Visor
